CAREER OBJECTIVE

To gain practical knowledge in the IT field that would help me to develop my skills. To strength my technical knowledge and to gain experience.

SKILLS

Web Technologies: HTML5, CSS3, JavaScript, React.js, Node.js, MongoDB
Language: Java (OOPS Concepts)
  Familiar with Agile

WORK EXPERIENCE

Project Intern in 480 Pixel Studio   Jan 2024 - May 2024

Front-End Developer with experience in projects like a token appreciation system and UI design for pamphlets, skilled in HTML, CSS, JavaScript, React.js, and modern frameworks, dedicated to creating responsive and user-friendly web applications.

EDUCATION

2022 - 2024   Master in Computer Application at **D.R D.Y Patil School of MCA**   (GPA: 7.50/10.0)
2019 - 2022   Bachelor's Computer Application at **Tilak Maharashtra Vidyapeeth**   (GPA: 7.4/10.0)

PROJECTS

Chatters / Using React , Firebase   Link to Demo

I've developed a real-time chat application using React.js and Firebase, enabling users to exchange messages instantly. The app leverages Firebase's real-time database and authentication features for seamless and secure communication. It also includes a sleek, responsive UI designed with React.js to provide an engaging user experience.

Ghar ki Rashoi (Cloud Kitchen) Using Mern Technology   Link to Demo

I co-developed "Ghar Ki Rashoi" (a cloud kitchen platform) using HTML, CSS, JavaScript, React.js, Node.js, and MongoDB. As both a front-end and back-end developer, I collaborated with three project partners to create a fully functional application. Key features include real-time food delivery tracking, a chef module, an admin section for comprehensive management, direct order acceptance by chefs, delivery assignment, and an integrated payment gateway
My Contribution: working on Landing Page and Add to Card functionalities and backend

Ecommerce App / Using React Navtive , Node.js   Link to Demo

An eCommerce app built with React Native and Node.js enables seamless cross-platform shopping experiences, providing users with a robust interface for browsing products and making purchases, while the°
backend efficiently manages data and user interactions.
My Contribution: Design all fronted Template
